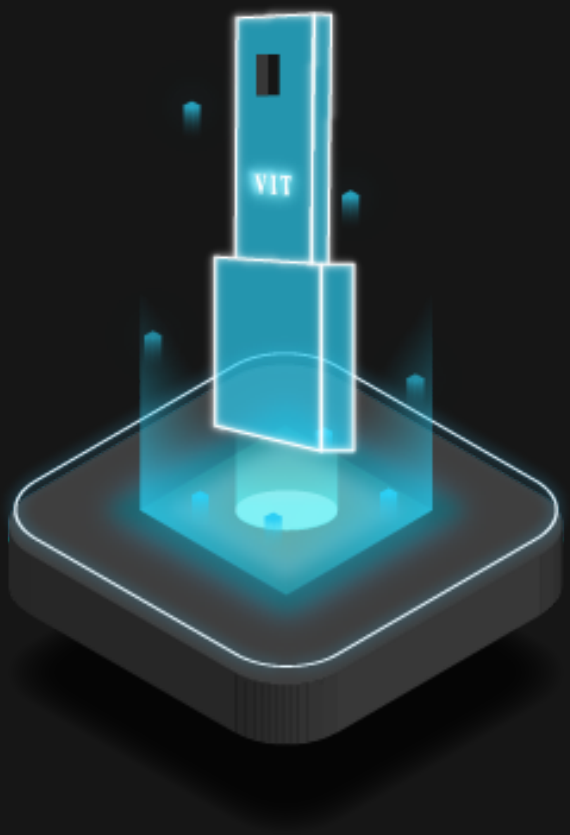
About VIT

Vellore Institute of Technology (VIT), Vellore is one of the top-rated engineering colleges in India and an **Institute of Eminence (IoE)**. The University works on ideas and executes tasks of different domains under Student Clubs and Chapters. VIT University has a cosmopolitan atmosphere with **30,000+** students from different corners of India and the globe. The motivated students at VIT are constantly exposed to different work atmospheres under the **100+** clubs and chapters working inside the campus.



About Us

DSC VIT, one of the most esteemed technical chapters in VIT, is a developers' community powered by Google Developers. It is a highly reputed non-profit organization aimed at empowering enthusiasts in developing in various technical domains and building solutions for real-world problems by working alongside a well-established design and management team.

What is Build You.com

Our event **Build You.com** is a unique opportunity for all budding developers to code along, and learn how to build and customize their own fully-working **personal portfolio website** from scratch.

Why Sponsor Us

Our aim is to help every budding developer grow in their desired field and contribute to society with something impactful and beneficent. We would be grateful if you could support us by sponsoring our event which can help us provide these talented students a free of cost medium to hone their skills and make a name for themselves in the constantly changing technology landscape.
We also aim to motivate participants by appreciating their efforts with swags and goodies. We also aim to conduct the event smoothly without any hassle and for this, we need your support. Your contribution can take us a long way in conducting this free event.

Past Events 2019-20

1. WomenTechies'20, March 2020

WomenTechies'20 was a one-of-its-kind women centric hackathon that aimed at bringing and empowering more women in tech. This 24-hour hackathon provided talented and individual women with the platform and resources to help them grow in their desired field and contribute to society with something impactful and beneficial. They were exposed to the world of coding, developing and debugging. Themes based on a wide spectrum, ranging from Automation to Banking to Finance helped bring a diverse field of developers to come together to solve problems, collaborate and implement innovative ideas. With over 300 passionate participants seeking to develop and build upon their ideas, it was truly a great start of the year for us at DSC-VIT.

Past Events 2019-20

2. DevJams'19, October 2019

This 36-hour Hackathon aimed at exposing young designers, developers to the competitive side of building products for the real-world. The event also inspired these young students to pursue their idea as a business, as various speakers from various sectors joined the event to give their keynote speeches. Basically it was a one-stop destination for every student looking to improve their skills and work under the guidance of skilled professionals and motivators. With a team that worked like clockwork, over 400 participants and 10+ speakers, the event was termed as VIT's most coveted hackathon.
